Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in–

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

1. Claims 1 & 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Lykken et al. (6,318,484).

Lykken et al. discloses a track assembly having all of applicant's claimed structure including a top tandem arm 102, and a bottom tandem arm 200. Lykken et al. further discloses a top portion of the bottom tandem arm being pivotally connected to the top tandem arm, and a front tandem arm idler wheel 164, a rear tandem arm idler wheel 162 and a belt 144 as shown in figures 3 & 4.

Claims 6-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Gignac (6,125,956).

Gignac discloses a track assembly having all of applicants claimed structure including a wheel frame, a forward and rear wheel (50 & 92), a belt, a first tandem arm with wheels for rocking generally in a vertical plane including a first idler wheel structure

Art Unit: 3671

and a second idler arm with second idler wheel structure as shown in figures 2 & 5.

Gignac further discloses a hitch member 105 and tension bar structure 48 & 90.

Allowable Subject Matter

2. Claim 2 is allowed.

Response to Arguments

Applicant's arguments filed 12/23/03 have been fully considered but they are not persuasive. Applicant argues that the top tandem arm of Lykken et al., is not pivotally connected to a frame. Applicant's arguments however are more limiting than the claims themselves as the top tandem arm of clearly pivots relative to the vehicle frame about both a horizontal and vertical axis as shown in figures 2 & 3 and described in the specification.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3671

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
